4-2 Review and Reinforcement . Quantum Theory . If the statement is true, write "true." If it is false, change the underlined word or words to make the statement true. 1. Planck proposed that the energy emitted or absorbed by any object is restricted to quanta of particular sizes. 2. We are not aware of quantum effects in the world around us

### 4-2 Review and Reinforcement - MRS. Nairn

Reinforcement. The term reinforce means to strengthen, and is used in psychology to refer to any stimuli which strengthens or increases the probability of a specific response. For example, if you want your dog to sit on command, you may give him a treat every time he sits for you. The dog will eventually come to understand that sitting when told to will result in a treat.
