Properties of Matter - Middle School Science Blog

Begin the video lesson States of Matter: Solids, Liquids, Gases, & Plasma as a class. Pause at 0:57 to perform an activity. Provide students with a sheet of chart paper and markers. Have students fold their chart paper into four sections. Label each section: gases, solids, liquids, and plasma.

States of Matter Lesson Plan for Middle School | Study.com

- The three states of matter are solid, liquid, and gas.
- Solids, liquids and gases can be characterized by their properties (including volume, shape, and the movement and spacing of particles).
- Different densities of water, or solutions, will stratify to form layers.

Bookmark File PDF States Of Matter Notes Middle School

Answer

Kinetic Molecular Theory Kinetic energy is energy that an object has because of its motion. The Kinetic Molecular Theory explains the forces between molecules and the energy that they possess. This theory is based on three theories about matter.

- Matter is composed of small particles (atoms, molecules, and ions).
